october, egypt

Engineering Research and Consulting Office Fayoum University

- Work as site engineer , Supervising the implementation , Review of the implementation statement and financial extract ,Review of quantities survey
- n the West of the airport in October all Egyptians lived O
- ▪ This work has benefited me in dealing with
- contractors in a direct way and how you can control the quality of work in a good way in terms of cost and engineering part, and how you can manage your affairs in a way that allows you to satisfy the company on one side and the consultant on the other side I was also able to design the project for working on the construction Rivet program with the inventory of quantities and this works to activate memory with engineering programs.

6. 2019 –4. 2020

EL Fayoum, egypt

Contractor in Al-Sob Agriculture project, petroment company.Steel Project

- This work in Fayoum / Assiut West Road Hawara.
- I learned from this work diligence, dedication to work, patience and work under pressure.
- I struggled to collect money from this work and get a gain. I really succeeded in doing so, but one day I returned from work in Ramadan at seven thirty in the morning, I turned in the car, knowing that I was any army this period and I had four months left with it
